

**BONALDO**

# Art console

In Art console, a metal trapezium develops diagonally under the table top, allowing minimum obstruction and optimising the space. To ensure stability, the trapezium is supplemented with two legs which can be customised with inserts in the same finish as the table top. The bearing frame so designed is distinguished for its elevated dynamism, its solidity and sculptural impact. The top is placed on it firmly, with a final effect of

incredible lightness. The base is available in matt painted metal or in the elegant burnished or copper-bronze finish; the top is available in various choices of wood or in ceramic. Able to be matched to the homonymous table, Art is distinguished for its refined geometric and graphic value, enhanced by the richness of the materials and finishings.
