## SOFT TOUCH COLLECTION BLEACH-CLEANABLE\*

### DISINFECTION OF THE “SOFT TOUCH COLLECTION” SUCCESSFULLY TESTED WITH A SOLUTION OF WATER AND 0.1% SODIUM HYPOCHLORITE.

With the measures prescribed in relation to the Corona virus, we are all facing new challenges.

Hygiene measures have taken on a new importance.

We all need to know who can protect us from viruses and bacteria.

In the hotel and restaurant industry, this also includes sanitizing furniture.

The new protocols for the restaurant and hotel industry prescribe sanitation after each guest and, if possible, to follow the recommendations of the World Health Organization. What is prescribed in the hospitality industry can also easily be carried out in everyday private life.

### THE PROTOCOLS PRESCRIBE:

All surfaces must be cleaned with a solution of water and 0.1% sodium hypochlorite (the solution is formulated by adding 50 ml of 5% household bleach in 2.5 liters of water). The mixture formulated fights bacteria and germs, guarantees maximum cleaning and ensures that clean surfaces are sanitized.

### WE TOOK UP THIS CHALLENGE AND TESTED OUR SOFT TOUCH COLLECTION WITH THIS FORMULA.

After 1000 cycles no changes were detected on the surface of the material and in the color. We are proud to inform you that the polyurethane used for “moon” facilitates quick and effective cleaning according to the most stringent sanitization protocols.
